Application No. 09/287,631 Attorney Docket No. 3063.0396-02

Assignee of this application, Mannington Mills of Delaware, Inc.

("Mannington") fully briefed and exhaustively responded to the allegations made by Armstrong in its Brief in Support for Partial Summary Judgment on the Issue of Validity, filed herewith. Because Mannington's Opposition Brief was filed under seal pursuant to a protective order, however, Mannington is not able to disclose it to the Patent Office. For this reason, the remarks related to invalidity of related issued claims filed herewith are incomplete in that they include only information adverse to Applicants' position.

A copy of the information available to Applicants is included herewith.

Applicants respectfully request that the Examiner carefully consider each listed document and indicate that it was considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that the disclosed information is material or constitutes "prior art." If the Examiner applies the information as prior art against any claim in the present application and Applicants determine that the information does not constitute "prior art" under United States law, Applicants reserve the right to present to the Patent Office the relevant facts and law regarding the appropriate status of such information.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the disclosed information, should it be applied against the claims of the present application.
